COOKIES POLICY:

In Entrol we use cookies. Cookies are small files that can be installed on your computer through the website for proper operation, as well as for the measurement of navigation through the page.

ENTROL uses web analytics cookies to measure and analyze the navigation of users on our website. You can find more information about the cookies used in the following table:

- Analytical cookies are those that, processed by us or by third parties, are intended to quantify the number of visitors and statistically analyze the use of our services. Thanks to this we can study the navigation on our website, and thus improve the offer of products or services that we offer. Through web analytics we do not obtain information about your name, surname or your email or postal address. The information we obtain is related to the number of users accessing the website, the number of page views, the frequency and repetition of visits, their duration, the browser you use, the operator that provides the service, your language, the terminal that you use or the city to which your IP address is assigned. At Entrol, we use the Google Analytics service, a web analytics service developed by Google, which provides a navigation measurement and analysis service on our website. Google can use the data to improve its services and offer services to other companies.
